

## Farmers Market Parking

There is parking on the South side of the Island Park area and West of the Aquatic center that consists of two (2) parking lots with one entrance in the South parking lot and one exit in the North Parking lot. The Farmer's Market vendors will be using the South parking lot to setup and sell their goods. Parking for patrons will be in the North parking lot.

There will be no traffic through the South parking lot, which is currently the entrance to parking, as vendors will be set up there. Traffic may park in the North parking lot, currently the exit, but this lot will be used for vehicles to turn around and then park in this parking lot. There is additional parking on the road between Highway 77 and Main street.

### Vendors

Vendors will be provided two (2) parking spaces for setup and display of their merchandise. One of the spaces may be used to park the vendor's vehicle. If only one space, please tell Webster Roth when you come in morning. That will allow more that 19 vendors in the south lot.

### Market Patrons

Customers of the Farmer's Market will be allowed to park in the North parking lot, see blue area on map. No drive through, customer will have to pull in the exit lot, turn around, and park.
